A: You have to install RAR under Windows and you must have either of keygen under Windows (32 or 64 bit). Without keygen you can't extract password protected RAR archive. How to install and use RAR RARarchive For more information, see our RAR homepage. RAR A: The process requires extra steps, but this is the easiest way to do it. Step 1 - Download RAR (for 32bit or 64bit) Step 2 - Extract RAR Step 3 - Start your Zip or WinRAR (as admin) Step 4 - Extract Password Protect Compressed Files (using keygen) Q: Is the ajax anti-pattern still alive when it comes to jQuery ajax? I am looking at a WebGL implementation written in javascript (and I know you can do WebGL in javaSctipt, but that's not the point). Now the javascript code contains an ajax call made by a jquery that calls a WebSocket to a server. Here is a very minimal example: // Declare an empty array where we will store the result // This is required before invoking the websocket call var res = []; // invoke the websocket call socket.onmessage = function(event) { // extract the result res = event.data; }; f678ea9f9e
